NAME

   XOrgFoundation - X.Org Foundation information

SYNOPSIS

   Release 6.7 and later of X Version 11 is brought to you by the X.Org Foundation.

DESCRIPTION

   The X.Org Foundation is an independent, not-for-profit 501(c)(3) charity corporation. It

   was formed in 2004 as the successor to the X.Org Group at The Open Group. The purpose of

   the X.Org Foundation is to foster the development, evolution, and maintenance of the X

   Window System, a comprehensive set of vendor-neutral, system-architecture neutral, net?

   work-transparent windowing and user interface standards. Membership in the X.Org Founda?

   tion is free and open to anyone. The X.Org Foundation hosts a public git repository of the

   source code on freedesktop.org.

   The X Window System was created in the mid-1980s at the Massachusetts Institute of Tech?

   nology. In 1988, MIT formed a member-funded consortium to provide the technical and ad?

   ministrative leadership necessary to support further development of the X Window System.

   In 1992, MIT and the membership decided it was in their best interests to move the consor?

   tium out of MIT and create an independent, stand-alone organization. All rights to the X

   Window System were assigned by MIT to X Consortium, Inc. on January 1, 1994. On December

31, 1996 the X Consortium, Inc. closed its doors and all rights to the X Window System were assigned to The Open Group (then known as the Open Software Foundation).

ADDRESSES

The X.Org Foundation's web site is http://www.x.org/

The X.Org Foundation's public ftp site is ftp://ftp.x.org/

Information about the X.Org Foundation git repository is on the X.Org web site at http://www.x.org/wiki/Development/git
