***Rocky Enterprise Linux 9.2 Manual Pages on command 'buildah-manifest-rm.1'***

***\$ man buildah-manifest-rm.1***

buildah-manifest-rm(1)          General Commands Manual          buildah-manifest-rm(1)

**NAME**

buildah-manifest-rm - Removes one or more manifest lists.

**SYNOPSIS**

buildah manifest rm [listNameOrIndexName ...]

**DESCRIPTION**

Removes one or more locally stored manifest lists.

**EXAMPLE**

buildah manifest rm

buildah manifest-rm listID1 listID2

storage.conf (/etc/containers/storage.conf)

storage.conf is the storage configuration file for all tools using containers/storage

The storage configuration file specifies all of the available container storage options

for tools using shared container storage.
