# Rocky Enterprise Linux 9.2 Manual Pages on command 'create-cracklib-dict.8'

## $ man create-cracklib-dict.8

create-cracklib-dict(8)          System Manager's Manual          create-cracklib-dict(8)

NAME

    create-cracklib-dict - Check passwords using libcrack2

SYNOPSIS

    create-cracklib-dict wordlist ...

DESCRIPTION

    create-cracklib-dict takes one or more word list files as arguments and converts them into

    cracklib dictionaries for use by password checking programs. The results are placed in the

    default compiled-in dictionary location.

    If  you  wish to store the dictionary in a different location, use the cracklib-format and

    cracklib-packer commands directly.

SEE ALSO

    cracklib-format(8), cracklib-packer(8), cracklib-check(8),

AUTHOR

    This man page was written by Jan Dittberner <jandd@debian.org> for  the  Debian  GNU/Linux

    System (but may be used by others).
