Rocky Enterprise Linux 9.2 Manual Pages on command 'gencat.1'

$ man gencat.1

GENCAT(1)   Debian   GENCAT(1)

NAME

    gencat - Generate message catalog

SYNOPSIS

    gencat [OPTION...] -o OUTPUT-FILE [INPUT-FILE]...

DESCRIPTION

    The gencat program is specified in the X/Open standard and the GNU implementation follows

    this specification and so processes all correctly formed input files. Additionally some

    extension are implemented which help to work in a more reasonable way with the catgets(3)

    functions.

    -H, --header NAME

        Create C header file NAME containing symbol definitions

    --new Do not use existing catalog, force new output file

    -o, --output NAME

        Write output to file NAME

AUTHOR

    gencat was written by Ulrich Drepper as part of the GNU C Library.

    This man page was written by Jeff Bailey <jbailey@debian.org>.
