Rocky Enterprise Linux 9.2 Manual Pages on command 'git-update-server-info.1'

$ man git-update-server-info.1

GIT-UPDATE-SERVER()   GIT-UPDATE-SERVER()

NAME

    git-update-server-info - Update auxiliary info file to help dumb servers

SYNOPSIS

    git update-server-info

DESCRIPTION

    A dumb server that does not do on-the-fly pack generations must have some auxiliary

    information files in $GIT_DIR/info and $GIT_OBJECT_DIRECTORY/info directories to help

    clients discover what references and packs the server has. This command generates such

    auxiliary files.

OUTPUT

    Currently the command updates the following files. Please see gitrepository-layout(5) for

    description of what they are for:

    ?   objects/info/packs

    ?   info/refs

GIT

    Part of the git(1) suite
