Rocky Enterprise Linux 9.2 Manual Pages on command 'go-fix.1'

$ man go-fix.1

GO-FIX(1)   General Commands Manual   GO-FIX(1)

NAME

　　go-fix - update packages to use new APIs

SYNOPSIS

　　go fix [packages]

DESCRIPTION

　　Fix runs the Go fix command on the packages named by the import paths.

　　For more about fix, see 'go doc cmd/fix'.

　　For more about specifying packages, see go-packages(7).

　　To run fix with specific options, run 'go tool fix'.

SEE ALSO

　　go-fmt(1), go-vet(1).

AUTHOR

　　This manual page was written by Michael Stapelberg <stapelberg@debian.org> and is main?

　　tained by the Debian Go Compiler Team <team+go-compiler@tracker.debian.org> based on the

　　output of 'go help fix' for the Debian project (and may be used by others).
