## Rocky Enterprise Linux 9.2 Manual Pages on command 'infotocap.1'

### $ man infotocap.1

infotocap(1)                     General Commands Manual                     infotocap(1)

NAME

    infotocap - convert a terminfo description into a termcap description

SYNOPSIS

    infotocap [-vn width]  [-V] [-1] [-w width] file ...

DESCRIPTION

    infotocap  looks in each given text file for terminfo descriptions.  For each terminfo de?

    scription found, an equivalent termcap description is written to  standard  output.   Ter?

    minfo use capabilities are translated directly to termcap tc capabilities.

    -v   print out tracing information on standard error as the program runs.

    -V   print out the version of the program in use on standard error and exit.

    -1   cause  the  fields to print out one to a line.  Otherwise, the fields will be printed

         several to a line to a maximum width of 60 characters.

    -w   change the output to width characters.

FILES

    /etc/terminfo      Compiled terminal description database.

NOTES

    This utility is actually a link to tic, running in -C mode.  You can use other tic options

    such as -f and  -x.

PORTABILITY

    None of X/Open Curses, Issue 7 (2009), SVr4 or NetBSD document this application.

SEE ALSO

    infocmp(1), tic(1), ncurses(3NCURSES), terminfo(5)

This describes ncurses version 6.3 (patch 20211021).
