Rocky Enterprise Linux 9.2 Manual Pages on command 'iscsi_fw_login.8'

$ man iscsi_fw_login.8

NAME

iscsi_fw_login - Login to all iSCSI Firmware targets

SYNOPSIS

iscsi_fw_login

DESCRIPTION

This helper function logs into all known iSCSI firmware targets.

It is meant as a helper function to be called by udev when new firmware targets are de?

tected asynchronously.
