***Rocky Enterprise Linux 9.2 Manual Pages on command 'mako-render.1'***

**\$ man mako-render.1**

MAKO-RENDER(1)                      General Commands Manual                      MAKO-RENDER(1)

**NAME**

mako-render - renders Mako templates

**SYNOPSIS**

mako-render [FILE]

**DESCRIPTION**

This manual page documents briefly the mako-render command.

mako-render is a standalone utility that can render Mako templates. Mako is a fast Python-powered template engine. If FILE is a single "-", standard input will be used as a template source.

**OPTIONS**

These programs follow the usual GNU command line syntax, with long options starting with two dashes ('-'). A summary of options is included below.

-h, --help

Show summary of options.

**AUTHOR**

mako-render script was written by Miki Tebeka <miki.tebeka@gmail.com>, Mako was written by Mike Bayer <mike@zzzcomputing.com>.

This manual page was written by Piotr O?arowski <piotr@debian.org>, for the Debian project (but may be used by others).
