Rocky Enterprise Linux 9.2 Manual Pages on command 'mq_getsetattr.2'

$ man mq_getsetattr.2

MQ_GETSETATTR(2)   Linux Programmer's Manual   MQ_GETSETATTR(2)

NAME

    mq_getsetattr - get/set message queue attributes

SYNOPSIS

    #include <sys/types.h>

    #include <mqueue.h>

    int mq_getsetattr(mqd_t mqdes, const struct mq_attr *newattr,

          struct mq_attr *oldattr);

    Note: There is no glibc wrapper for this system call; see NOTES.

DESCRIPTION

    Do not use this system call.

    This is the low-level system call used to implement mq_getattr(3) and mq_setattr(3). For

    an explanation of how this system call operates, see the description of mq_setattr(3).

CONFORMING TO

    This interface is nonstandard; avoid its use.

NOTES

    Glibc does not provide a wrapper for this system call; call it using syscall(2).   (Actu?

    ally, never call it unless you are writing a C library!)

SEE ALSO

    mq_getattr(3), mq_overview(7)

COLOPHON

    This page is part of release 5.10 of the Linux man-pages project. A description of the

    project, information about reporting bugs, and the latest version of this page, can be

found at https://www.kernel.org/doc/man-pages/.
