***Rocky Enterprise Linux 9.2 Manual Pages on command 'nologin.8'***

***\$ man nologin.8***

NOLOGIN(8)                      System Management Commands                      NOLOGIN(8)

NAME

nologin - politely refuse a login

SYNOPSIS

nologin

DESCRIPTION

The nologin command displays a message that an account is not available and exits non-zero. It is intended as a replacement shell field for accounts that have been disabled.

To disable all logins, investigate nologin(5).

If SSH\_ORIGINAL\_COMMAND is populated it will be logged.

SEE ALSO

login(1), nologin(5).

HISTORY

The nologin command appeared in BSD 4.4.

shadow-utils 4.8.1                      02/06/2024                      NOLOGIN(8)
