$ man remove-shell.8

REMOVE-SHELL(8)   System Manager's Manual   REMOVE-SHELL(8)

NAME

    remove-shell - remove shells from the list of valid login shells

SYNOPSIS

    remove-shell shellname [shellname...]

DESCRIPTION

    remove-shell operates on the temporary files /etc/shells.tmp and /etc/shells.tmp2 to re?

    move the given shells from the list of valid login shells, and copy the result back to

    /etc/shells.

SEE ALSO
