### ***Rocky Enterprise Linux 9.2 Manual Pages on command 'resizepart.8'***

#### ***\$ man resizepart.8***

RESIZEPART(8)                      System Administration                      RESIZEPART(8)

#### NAME

resizepart - tell the kernel about the new size of a partition

#### SYNOPSIS

resizepart device partition length

#### DESCRIPTION

resizepart tells the Linux kernel about the new size of the specified partition. The command is a simple wrapper around the "resize partition" ioctl. This command doesn't manipulate partitions on a block device.

#### PARAMETERS

device

The disk device.

partition

The partition number.

length

The new length of the partition (in 512-byte sectors).

#### SEE ALSO

addpart(8), delpart(8), fdisk(8), parted(8), partprobe(8), partx(8)

#### REPORTING BUGS

For bug reports, use the issue tracker at <https://github.com/karelzak/util-linux/issues>.

#### AVAILABILITY

The resizepart command is part of the util-linux package which can be downloaded from Linux Kernel Archive <<https://www.kernel.org/pub/linux/utils/util-linux/>>.
