Rocky Enterprise Linux 9.2 Manual Pages on command 'sensible-editor.1'

$ man sensible-editor.1

SENSIBLE-EDITOR(1)   General Commands Manual   SENSIBLE-EDITOR(1)

NAME

   sensible-editor - sensible editing

SYNOPSIS

   sensible-editor [OPTIONS...]

DESCRIPTION

   sensible-editor makes sensible decisions on which editor to call. Programs in Debian can

   use this script as their default editor. sensible-editor try to do in the following or?

   der:

   1   if VISUAL environment variable exists, execute VISUAL [OPTIONS]

   2   if EDITOR environment variable exists, execute EDITOR?[OPTIONS]

   3   source the contents of file ~/.selected_editor and, if SELECTED_EDITOR environment

        variable exists execute SELECTED_EDITOR?[OPTIONS]

   4   run editor [OPTIONS] command

   5   finally run nano-tiny [OPTIONS] command

SEE ALSO

   environ(7) for documentation of the EDITOR, VISUAL variables

   select-editor(1) for changing a user's default editor.

   editor(1) for default system wide editor.

BUGS

   This command is protected against trivial fork bomb, when user set EDITOR=sensible-editor

   wider loops are still possible.

STANDARD

Documentation of behavior of sensible-utils under a debian system is available under sec‐

tion 11.4 of debian-policy usually installed under /usr/share/doc/debian-policy (you might

need to install debian-policy)
