\$ man systemd-update-utmp.8

SYSTEMD-UPDATE-UTMP.SERVICE(8) systemd-update-utmp.service SYSTEMD-UPDATE-UTMP.SERVICE(8)

NAME

systemd-update-utmp.service, systemd-update-utmp-runlevel.service, systemd-update-utmp -
Write audit and utmp updates at bootup, runlevel changes and shutdown

SYNOPSIS

systemd-update-utmp.service

systemd-update-utmp-runlevel.service

/lib/systemd/systemd-update-utmp

DESCRIPTION

systemd-update-utmp-runlevel.service is a service that writes SysV runlevel changes to utmp and wtmp, as well as the audit logs, as they occur. systemd-update-utmp.service does the same for system reboots and shutdown requests.

SEE ALSO
