***\$ man tc-basic.8***

Basic classifier in tc(8)                      Linux                      Basic classifier in tc(8)

**NAME**

basic - basic traffic control filter

**SYNOPSIS**

tc filter ... basic [ match EMATCH\_TREE ] [ action ACTION\_SPEC ] [ classid CLASSID ]

**DESCRIPTION**

The basic filter allows to classify packets using the extended match infrastructure.

**OPTIONS**

action ACTION\_SPEC

Apply an action from the generic actions framework on matching packets.

classid CLASSID

Push matching packets into the class identified by CLASSID.

match EMATCH\_TREE

Match packets using the extended match infrastructure. See tc-emark(8) for a detailed description of the allowed syntax in EMATCH\_TREE.
