Rocky Enterprise Linux 9.2 Manual Pages on command 'unicode_stop.1'

$ man unicode_stop.1

UNICODE_STOP(1)   General Commands Manual   UNICODE_STOP(1)

NAME

   unicode_stop - revert keyboard and console from unicode mode

SYNOPSIS

   unicode_stop

DESCRIPTION

   The unicode_stop command will more-or-less undo the effect of unicode_start. It puts the

   keyboard in ASCII (XLATE) mode, and clears the console UTF-8 mode.
