PowerShell Get-Help on command 'Move-AppxPackage'

PS C:\Users\wahid> Get-Help Move-AppxPackage

NAME

    Move-AppxPackage

SYNOPSIS

    Moves a package from its current location to another appx volume.

SYNTAX

    Move-AppxPackage [-Package] <System.String[]> [-Volume] <AppxVolume>

    [-Confirm] [-WhatIf] [<CommonParameters>]

DESCRIPTION

    The `Move-AppxPackage` cmdlet moves a package from its current location to

    another AppxVolume . The new location must be a volume that Package Manager

    knows about and that's mounted. This cmdlet also moves your application data

    to the specified volume.

PARAMETERS

    -Package <System.String[]>

Specifies an AppxPackage object or the full name of a package. This cmdlet
moves the package that this parameter specifies.

-Volume <AppxVolume>

Specifies an AppxVolume object. The cmdlet moves the package to the volume
that this parameter specifies.

-Confirm <System.Management.Automation.SwitchParameter>

Prompts you for confirmation before running the cmdlet.

-WhatIf <System.Management.Automation.SwitchParameter>

Shows what would happen if the cmdlet runs. The cmdlet isn't run.

<CommonParameters>

This cmdlet supports the common parameters: Verbose, Debug,

ErrorAction, ErrorVariable, WarningAction, WarningVariable,

OutBuffer, PipelineVariable, and OutVariable. For more information, see

about_CommonParameters (https:/go.microsoft.com/fwlink/?LinkID=113216).

-- Example 1: Move a package to a volume specified by a path --

Move-AppxPackage -Package "package1_1.0.0.0_neutral__8wekyb3d8bbwe" -Volume F:\

This command moves package that has the specified name to volume `F:`. This

cmdlet also moves your app data.

--- Example 2: Move a package to a volume specified by an ID ---

$params = @{

Package = 'package1_1.0.0.0_neutral__8wekyb3d8bbwe'

Volume = '{d2a4d1f4-f45a-46f3-a419-160ab52af091}'

}

Move-AppxPackage @params

This command moves package that has the specified name to the volume that has

the specified media ID. This cmdlet also moves your app data.
