PowerShell Get-Help on command 'Unregister-WindowsDeveloperLicense'

PS C:\Users\wahid> Get-Help Unregister-WindowsDeveloperLicense

NAME

Unregister-WindowsDeveloperLicense

SYNOPSIS

Disables Developer Mode on the current computer.

SYNTAX

Unregister-WindowsDeveloperLicense [-Confirm] [-Force] [-WhatIf]
[<CommonParameters>]

DESCRIPTION

The Unregister-WindowsDeveloperLicense cmdlet disables Developer Mode on the current computer. If a developer license exists on the current computer, this cmdlet also removes it. If you disable Developer Mode, you can no longer install and test your apps by using Microsoft Visual Studio. Any app that you deployed from Visual Studio no longer runs on the current computer.

You must have administrative credentials to disable Developer Mode. For more information, see Enable your device for development

(<https://msdn.microsoft.com/en-us/library/windows/apps/xaml/dn706236.aspx>)
(<https://msdn.microsoft.com/en-us/library/windows/apps/xaml/dn706236.aspx>)in
the Microsoft Developer Network library. If you have not enabled Developer
Mode for the current computer, this cmdlet returns an error.

PARAMETERS

-Confirm [<SwitchParameter>]

Prompts you for confirmation before running the cmdlet.

-Force [<SwitchParameter>]

Disables Developer Mode without prompting you for confirmation. By
default, the cmdlet prompts you for confirmation before it proceeds.

-WhatIf [<SwitchParameter>]

Shows what would happen if the cmdlet runs. The cmdlet is not run.

<CommonParameters>

This cmdlet supports the common parameters: Verbose, Debug,
ErrorAction, ErrorVariable, WarningAction, WarningVariable,
OutBuffer, PipelineVariable, and OutVariable. For more information, see
about_CommonParameters (<https://go.microsoft.com/fwlink/?LinkID=113216>).

----- Example 1: Disable Developer Mode -----

```
PS C:\> Unregister-WindowsDeveloperLicense
```

This command disables Developer Mode for the current computer. The cmdlet
prompts you for confirmation before it disables Developer Mode. To skip this
prompt, specify the Force parameter.
