Red Hat Enterprise Linux Release 9.2 Manual Pages on 'cd-create-profile.1' command

\$ man cd-create-profile.1

CD-CREATE-PROFILE(1) User Commands CD-CREATE-PROFILE(1)

NAME

cd-create-profile - Color Manager Profile Creation Tool

SYNOPSIS

cd-create-profile [--verbose]

DESCRIPTION

This manual page documents briefly the cd-create-profile command.

cd-create-profile allows an administrator to create ICC profiles on their system.

OPTIONS

This program follows the usual GNU command line syntax, with long options starting with two dashes (?-?). A summary of options is included below.

--help

Show summary of options.

--description (optional)

Sets the profile description.

--copyright (optional)

Sets the profile copyright.

--model (optional)

Sets the profile model.

--manufacturer (optional)

Sets the profile manufacturer.

--srgb-palette

Specifies a comma separated values file that is used for the named color.

The format of the CSV file must be "Color Name",0-255(red),0-255(green),0-255(blue).

--output

Specifies the output ICC filename.

--nc-prefix (optional)

Specifies the named color palette prefix.

--nc-suffix (optional)

Specifies the named color palette suffix.
