## **Red Hat Enterprise Linux Release 9.2 Manual Pages on 'flatpak-permission-reset.1' command**

### **\$ man flatpak-permission-reset.1**

FLATPAK PERMISSION-(1) flatpak permission-reset FLATPAK PERMISSION-(1)

#### NAME

flatpak-permission-reset - Reset permissions

#### SYNOPSIS

flatpak permission-reset [OPTION...] APP\_ID

flatpak permission-reset [OPTION...] --all

#### DESCRIPTION

Removes all permissions for the given app from the Flatpak permission store.

The permission store is used by portals. Each portal generally has its own table in the permission store, and the format of the table entries is specific to each portal.

#### OPTIONS

The following options are understood:

--all

Remove permissions for all applications.

-h, --help

Show help options and exit.

-v, --verbose

Print debug information during command processing.

--ostree-verbose

Print OSTree debug information during command processing.
