$ man foomatic-replaceoldprinterids.1

FOOMATIC-REPLACEOLDPRINTERIDGeneral Commands MFOOMATIC-REPLACEOLDPRINTERIDS(1)

NAME

    foomatic-replaceoldprinterids - Replace references to old printer IDs

SYNOPSIS

    foomatic-replaceoldprinterids

DESCRIPTION

    Replaces references to old numerical or otherwise obsolete printer IDs

    in arbitrary file. By default it uses the db/oldprinterids file of the

    current Foomatic database as translation table, but you can use arbi?

    trary translation tables.

    It is very unlikely you need to use this.
