Red Hat Enterprise Linux Release 9.2 Manual Pages on 'grub2-setpassword.8' command

$ man grub2-setpassword.8

GRUB-SET-PASSWORD(8)   System Administration Utilities   GRUB-SET-PASSWORD(8)

NAME

   grub-set-password - generate the user.cfg file containing the hashed

   grub bootloader password

SYNOPSIS

   grub-set-password [OPTION]

DESCRIPTION

   The grub bootloader password may only be set by root.

   ./grub-set-password prompts the user to set a password on the grub

   bootloader. The password is written to a file named user.cfg which

   lives in the GRUB directory located by default at /boot/grub2.

   -h, --help

       print this message and exit

   -v, --version

       print the version information and exit

   -o, --output_path <DIRECTORY>

       put user.cfg in a user-selected directory

REPORTING BUGS
