Red Hat Enterprise Linux Release 9.2 Manual Pages on 'luserdel.1' command

$ man luserdel.1

luserdel(1)　　　　　General Commands Manual　　　　　luserdel(1)

NAME

　　luserdel - Delete an user

SYNOPSIS

　　luserdel [OPTION]... user

DESCRIPTION

　　Deletes the user with name user.

OPTIONS

　　-G, --dontremovegroup

　　　　By default the user's primary group is removed if it has group

　　　　name user (user's private group). This option disables this be?

　　　　havior.

　　-i, --interactive

　　　　Ask all questions when connecting to the user database, even if

　　　　default answers are set up in libuser configuration.

　　-r, --removehome

　　　　Remove user's home directory and mail spool after deleting the

　　　　user.

EXIT STATUS

　　The exit status is 0 on success, nonzero on error.
