Red Hat Enterprise Linux Release 9.2 Manual Pages on 'nvme-dera-stat.1' command

\$ man nvme-dera-stat.1

NVME-DERA-STAT(1) NVMe Manual NVME-DERA-STAT(1)

NAME

nvme-dera-stat - Send NVMe Dera Device status and Additional SMART log page request, returns result and log

SYNOPSIS

nvme dera stat <device>

DESCRIPTION

Retrieves the NVMe Dera Device status and Additional SMART log page from the device and provides the returned structure.

The <device> parameter is mandatory and may be either the NVMe character device (ex: /dev/nvme0), or a namespace block device (ex: /dev/nvme0n1).

On success, the returned status and smart log structure are printed in a readable format.

OPTIONS

none

EXAMPLES

? Print the Dera Device status and Additional SMART log page in a human readable format:

```
# nvme dera stat /dev/nvme0
```

NVME

Part of the nvme-user suite
