Red Hat Enterprise Linux Release 9.2 Manual Pages on 'ostree-admin-cleanup.1' command

$ man ostree-admin-cleanup.1

OSTREE ADMIN CLEANUP(1)   ostree admin cleanup   OSTREE ADMIN CLEANUP(1)

NAME

    ostree-admin-cleanup - Delete untagged deployments and repository

    objects

SYNOPSIS

    ostree admin cleanup

DESCRIPTION

    OSTree sysroot cleans up other bootversions and old deployments.

    If/when a pull or deployment is interrupted, a partially written state

    may remain on disk. This command cleans up any such partial states.

EXAMPLE

    $ ostree admin cleanup

OSTree   OSTREE ADMIN CLEANUP(1)
