## Red Hat Enterprise Linux Release 9.2 Manual Pages on 'speech-dispatcher.1' command

**$ man speech-dispatcher.1**

SPEECH-DISPATCHER(1)           User Commands           SPEECH-DISPATCHER(1)

NAME

    speech-dispatcher - speech synthesis daemon

SYNOPSIS

    speech-dispatcher  [-{d|s}]  [-l {1|2|3|4|5}]  [-c  com_method]  [-S

    socket_path] [-p port] [-t timeout] | [-v] | [-h]

DESCRIPTION

    Speech Dispatcher -- Common interface for Speech Synthesis (GNU GPL)

OPTIONS

    -d, --run-daemon

        Run as a daemon

    -s, --run-single

        Run as single application

    -a, --spawn

        Start only if autospawn is not disabled

    -l, --log-level

        Set log level (between 1 and 5)

    -L, --log-dir

        Set path to logging

    -c, --communication-method

        Communication method to use ('unix_socket' or 'inet_socket')

    -S, --socket-path

        Socket path to use for 'unix_socket' method (filesystem path  or

'default')

**-p, --port**

Specify a port number for 'inet_socket' method

**-t, --timeout**

Set time in seconds for the server to wait before it shuts down,

if it has no clients connected. Setting to 0 disables such shut?

down

**-P, --pid-file**

Set path to pid file

**-C, --config-dir**

Set path to configuration

**-m, --module-dir**

Set path to modules

**-v, --version**

Report version of this program

**-D, --debug**

Output  debugging  information into $TMPDIR/speechd-debug if TM?

PDIR is exported, otherwise to /tmp/speechd-debug

**-h, --help**

Print this info

Please report bugs to speechd-discuss@nongnu.org
