Red Hat Enterprise Linux Release 9.2 Manual Pages on 'tc-basic.8' command

$ man tc-basic.8

Basic classifier in tc(8)   Linux   Basic classifier in tc(8)

NAME

    basic - basic traffic control filter

SYNOPSIS

    tc filter ... basic [match EMATCH_TREE] [action ACTION_SPEC] [

        classid CLASSID]

DESCRIPTION

    The basic filter allows one to classify packets using the extended

    match infrastructure.

OPTIONS

    action ACTION_SPEC

        Apply an action from the generic actions framework on matching

        packets.

    classid CLASSID

        Push matching packets into the class identified by CLASSID.

    match EMATCH_TREE

        Match packets using the extended match infrastructure. See tc-

ematch(8) for a detailed description of the allowed syntax in
EMATCH_TREE.
