$ man gnome-shell.1

GNOME-SHELL(1)   User Commands   GNOME-SHELL(1)

NAME

   gnome-shell - Graphical shell for the GNOME desktop

SYNOPSIS

   gnome-shell [OPTION...]

DESCRIPTION

   GNOME shell provides core user interface functions for the GNOME 3

   desktop, like switching to windows and launching applications. GNOME

   shell takes advantage of the capabilities of modern graphics hardware

   and introduces innovative user interface concepts to provide a visually

   attractive and easy to use experience.

   gnome-shell is a required component of the GNOME desktop, i.e. it is

   listed in the RequiredComponents field of

   /usr/share/gnome-session/sessions/gnome.session. It is started in the

   window manager phase of the session.

OPTIONS

   --wayland

      Run as a wayland compositor

--display-server

    Run as a full display server, rather than nested

--nested

    Run as a nested compositor

--no-x11

    Run wayland compositor without starting Xwayland

--x11

    Run with X11 backend

--wayland-display=DISPLAY

    Wayland display name to use

-d, --display=DISPLAY

    X display to use

-r, --replace

    Replace the running window manager

--sm-disable

    Disable connection to the session manager

--sm-client-id=ID

    Specify session management ID

--sm-save-file=FILE

    Initialize session from FILE

--sync

    Make X calls synchronous

--mode=MODE

    Use a specific mode, e.g. "gdm" for login screen

--list-modes

    List possible modes and exit

--version

    Print version and exit

--help

    Display help and exit

FILES

    /usr/share/gnome-session/sessions/gnome.session,

    /usr/share/applications/org.gnome.Shell.desktop.

BUGS

The bug tracker can be reached by visiting the website

https://gitlab.gnome.org/GNOME/gnome-shell/issues. Before sending a bug

report, please verify that you have the latest version of gnome-shell.

Many bugs (major and minor) are fixed at each release, and if yours is

out of date, the problem may already have been solved.

ADDITIONAL INFORMATION
