## Rocky Enterprise Linux 9.2 Manual Pages on command 'gtk-query-immodules-3.0.1'

*$ man gtk-query-immodules-3.0.1*

GTK-QUERY-IMMODULE(1)　　　　User Commands　　　　GTK-QUERY-IMMODULE(1)

NAME

　　　gtk-query-immodules-3.0 - Input method module registration utility

SYNOPSIS

　　　gtk-query-immodules-3.0 [--update-cache] [MODULE...]

DESCRIPTION

　　　gtk-query-immodules-3.0 collects information about loadable input

　　　method modules for GTK+ and writes it to the default cache file

　　　location, or to stdout.

　　　If called without arguments, it looks for modules in the GTK+ input

　　　method module path.

　　　If called with arguments, it looks for the specified modules. The

　　　arguments may be absolute or relative paths.

　　　Normally, the output of gtk-query-immodules-3.0 is written to

　　　libdir/gtk-3.0/3.0.0/immodules.cache, where GTK+ looks for it by

　　　default. If it is written to some other location, the

　　　GTK_IM_MODULE_FILE environment variable can be set to point GTK+ at the

　　　file.

OPTIONS

--update-cache

Write the output to the default cache location instead of stdout

FILES

libdir/gtk-3.0/3.0.0/immodules.cache

The default im cache file used by GTK+ applications

ENVIRONMENT

GTK_PATH

Prepends directories to the input method module path

GTK_IM_MODULE_FILE

Specifies an alternative im module cache for GTK+ applications
