### ***Rocky Enterprise Linux 9.2 Manual Pages on command 'lsattr.1'***

#### ***\$ man lsattr.1***

LSATTR(1)            General Commands Manual            LSATTR(1)

#### NAME

lsattr - list file attributes on a Linux second extended file system

#### SYNOPSIS

lsattr [ -RVadlpv ] [ files... ]

#### DESCRIPTION

lsattr lists the file attributes on a second extended file system. See `chattr(1)` for a description of the attributes and what they mean.

#### OPTIONS

- R    Recursively list attributes of directories and their contents.
- V    Display the program version.
- a    List all files in directories, including files that start with `.\.`
- d    List directories like other files, rather than listing their contents.
- l    Print the options using long names instead of single character abbreviations.
- p    List the file's project number.

-v List the file's version/generation number.

#### AUTHOR

lsattr was written by Remy Card <Remy.Card@linux.org>. It is currently being maintained by Theodore Ts'o <tytso@alum.mit.edu>.

#### BUGS

There are none :-).

#### AVAILABILITY

lsattr is part of the e2fsprogs package and is available from <http://e2fsprogs.sourceforge.net>.
