Rocky Enterprise Linux 9.2 Manual Pages on command 'sliceprint.1'

\$ man sliceprint.1

SLICEPRINT(1) SLICEPRINT SLICEPRINT(1)

NAME

sliceprint - slice documents with long lines.

SYNOPSIS

sliceprint [-ofile] [encrypt_options] [files]

DESCRIPTION

Sliceprint is a wrapper around the `encrypt(1)` `--slice` option. Output slices are written to `file.1`, `file.2` and so on.

SEE ALSO

`encrypt(1)`
