Rocky Enterprise Linux 9.2 Manual Pages on command 'unicode_stop.1'

$ man unicode_stop.1

UNICODE_STOP(1)   General Commands Manual   UNICODE_STOP(1)

NAME

    unicode_stop - revert keyboard and console from unicode mode

SYNOPSIS

    unicode_stop

DESCRIPTION

    The unicode_stop command will more-or-less undo the effect of uni?

    code_start. It puts the keyboard in ASCII (XLATE) mode, and clears the

    console UTF-8 mode.
