Windows 11 Help on 'EXIT' command

C:\>HELP EXIT

Quits the CMD.EXE program (command interpreter) or the current batch script.

EXIT [/B] [exitCode]

/B specifies to exit the current batch script instead of CMD.EXE. If executed from outside a batch script, it will quit CMD.EXE

exitCode specifies a numeric number. if /B is specified, sets ERRORLEVEL that number. If quitting CMD.EXE, sets the process exit code with that number.
