C:\Windows>help cmd

Windows 11 Help on 'TIME' command

C:\>HELP TIME

Displays or sets the system time.

TIME [/T | time]

Type TIME with no parameters to display the current time setting and a prompt

for a new one. Press ENTER to keep the same time.

If Command Extensions are enabled the TIME command supports

the /T switch which tells the command to just output the

current time, without prompting for a new time.
