

NAME

XtLastEventProcessed, XtLastTimestampProcessed – last event, last timestamp processed

SYNTAX

XEvent* XtLastEventProcessed(Display* *display*);

Time XtLastTimestampProcessed(Display* *display*);

ARGUMENTS

display Specifies the open display connection.

DESCRIPTION

XtLastEventProcessed returns the last event passed to **XtDispatchEvent** for the specified display and NULL if there has been no event. The client must not modify the contents of the returned event.

XtLastTimestampProcessed returns the timestamp of the last **KeyPress**, **KeyRelease**, **ButtonPress**, **ButtonRelease**, **MotionNotify**, **EnterNotify**, **LeaveNotify**, **PropertyNotify**, or **SelectionClear** event that has been passed to **XtDispatchEvent** for the specified display and zero if there has been no such event.
