

NAME

XtSetMultiClickTime, XtGetMultiClickTime – set and get multi-click times

SYNTAX

```
void XtSetMultiClickTime(Display* display, int time);
```

```
int XtGetMultiClickTime(Display* display);
```

ARGUMENTS

display Specifies the display connection.

time Specifies the multi-click time in milliseconds.

DESCRIPTION

XtSetMultiClickTime sets the time interval used by the translation manager to determine when multiple events are interpreted as a repeated event.

XtGetMultiClickTime returns the time in milliseconds that the translation manager uses to determine if multiple events are to be interpreted as a repeated event for purposes of matching a translation entry containing a repeat count.
