NAME

       bundle−list − List all the gems in the bundle

SYNOPSIS

       bundle list [−−name−only] [−−paths] [−−without−group=GROUP] [−−only−group=GROUP]

DESCRIPTION

       Prints a list of all the gems in the bundle including their version.

       Example:

       bundle list −−name−only

       bundle list −−paths

       bundle list −−without−group test

       bundle list −−only−group dev

       bundle list −−only−group dev −−paths

OPTIONS

       −−name−only

              Print only the name of each gem.

       −−paths

              Print the path to each gem in the bundle.

       −−without−group

              Print all gems expect from a group.

       −−only−group

              Print gems from a particular group.
