

**NAME**

**bundle-viz** – Generates a visual dependency graph for your Gemfile

**SYNOPSIS**

**bundle viz** [--file=FILE] [--format=FORMAT] [--requirements] [--version] [--without=GROUP GROUP]

**DESCRIPTION**

**viz** generates a PNG file of the current **Gemfile(5)** as a dependency graph. **viz** requires the `ruby-graphviz` gem (and its dependencies).

The associated gems must also be installed via **bundle install(1)** *bundle-install.1.html*.

**OPTIONS**

**--file, -f**

The name to use for the generated file. See **--format** option

**--format, -F**

This is output format option. Supported format is png, jpg, svg, dot ...

**--requirements, -R**

Set to show the version of each required dependency.

**--version, -v**

Set to show each gem version.

**--without, -W**

Exclude gems that are part of the specified named group.
