NAME
byobu−launcher−install − Byobu Launcher installation utility

SYNOPSIS
byobu−launcher−install [−n|−−no−logout]

DESCRIPTION
byobu−launcher-install(1) is a simple utilty that will add a line to your *$HOME/.profile* file which launches **byobu**(1) any time you login through **ssh**(1) or on a **console**(4).

By default, when users detach from the **byobu**(1) session they will also logout. Users can change this behavior by adding the [−n|−−no−logout] option when they run **byobu−launcher−install**(1).

You can disable this behavior entirely at any time with the **byobu−launcher−uninstall(1) utility.**

SEE ALSO
