NAME

Enchant − list provider and dictionary information

SYNOPSIS

enchant-lsmod-2 [[**−lang**|**-word-chars**] [**language_tag**]|**−list-dicts**|**−help**|**−version**]

DESCRIPTION

enchant-lsmod-2 gives information about Enchant's spell-checker providers and the dictionaries each of-fers. See **enchant-2**(1) for details about how the providers and dictionaries are located. If no command-line options are given, the available providers are listed.

OPTIONS

−lang   Show which provider and dictionary will be used for the given language, or all languages if none is supplied.

−word−chars
Show the extra word characters for the given language, if available. This is of little interest to most users.

−list−dicts
List the provider and dictionary for all available languages.

−help   Show brief help.

−version
Prints the program's version.
