

**NAME**

*gencat* – Generate message catalog

**SYNOPSIS**

*gencat* [OPTION...] -o OUTPUT-FILE [INPUT-FILE]...

**DESCRIPTION**

The **gencat** program is specified in the X/Open standard and the GNU implementation follows this specification and so processes all correctly formed input files. Additionally some extension are implemented which help to work in a more reasonable way with the **catgets(3)** functions.

**-H, --header NAME**

Create C header file NAME containing symbol definitions

**--new** Do not use existing catalog, force new output file

**-o, --output NAME**

Write output to file NAME

**AUTHOR**

*gencat* was written by Ulrich Drepper as part of the GNU C Library.
