

**NAME**

ppm3d - convert two portable pixmap into a red/blue 3d glasses pixmap

**SYNOPSIS**

**ppm3d** *leftppmfile rightppmfile* [*horizontal\_offset*]

**DESCRIPTION**

Reads two portable pixmaps as input. Produces a portable pixmap as output, with the images overlapping by *horizontal\_offset*

pixels in blue/red format.

*horizontal\_offset* defaults to 30 pixels. Pixmaps **MUST** be the same size.
