

NAME

ps2pdfwr – Convert PostScript to PDF without specifying CompatibilityLevel, using ghostscript

SYNOPSIS

ps2pdfwr [options...] {input.[e]ps|-} [output.pdf|-]

DESCRIPTION

This wrapper script invokes **gs(1)** with following arguments

-q -dNOPAUSE -dBATCHE -sDEVICE=pdfwrite

as well as the appropriate **-dOutputFile** argument, all preceded and followed by any command-line arguments. Finally, the security option **-dSAFER** is prepended before all the other options.

The version-specific **ps2pdf** scripts all invoke this one with the addition of the respective compatibility level option.

SEE ALSO

gs(1), **ps2pdf(1)**

VERSION

This document was last revised for Ghostscript version 9.50.
