

NAME

thin_trim - Issue discard requests for free pool space (offline tool).

SYNOPSIS

```
thin_trim [options] --metadata-dev {device|file} --data-dev {device|file}
```

DESCRIPTION

thin_trim sends discard requests to the pool device for unprovisioned areas.

This tool cannot be run on live metadata.

OPTIONS**-h, --help**

Print help and exit.

-V, --version

Print version information and exit.

--pool-inactive

Indicates you are aware the pool should be inactive.

Suppresses a warning message and prompt.
