

**NAME**

w3mman – an interface to the on-line reference manuals via w3m(1)

**SYNOPSIS**

```
w3mman [ -M path ] [ [ section ] page ]  
w3mman [ -M path ] [ section ] -k keyword  
w3mman -l file
```

**DESCRIPTION**

w3mman is a Perl script that uses w3m(1) to serve as a pager for on-line reference manuals.

**OPTIONS**

A summary of options is included below.

**-M *path***  
Specify *path* as alternative MANPATH to use.

**-k *keyword***  
Specify *keyword*.

**-l *file*** Specify a *file*.

**ENVIRONMENT**

Two variables are available for debugging.

**W3MMAN\_W3M**

If W3MMAN\_W3M is set, its value is used instead of w3m.

**W3MMAN\_MAN**

If W3MMAN\_MAN is set, its value is used instead of /usr/bin/man.

**FILES**

*/usr/lib/w3m/cgi-bin/w3mman2html.cgi*  
manual page to HTML converter.

**SEE ALSO**

man(1), w3m(1).
